SOCIAL AND PERSONAL

Among the forty young ladies that the O.W. R. & N. company officials are entertaining this week at the Rose Festival are five from Umatilla county. Miss Olive Wilson of Pendleton, Miss Edna Hamilton of Rietz, Miss Nellie Nelson of Weston, Miss Grace Harber of Milton and Mrs. H. B. Minnick of Umatilla. Yesterday they were entertained at luncheon on board the Rose City by President Farrell and have a full program during the time they are in Portland.

Mr. and Mrs. W. L. Thompson arrived home this morning from Portland where they had attended the festival and where Mr. Thompson was present at the state bankers' convention.

Mrs. A. C. Hampton and Mrs. Merle R. Chessman are this afternoon entertaining at bridge at the Hampton home on High street.

One of the most brilliant events of the Rose Festival was the ball given last evening to Queen Muriel by the Umatillas at Culliton Hall. About four hundred invitations had been issued and Portland's leading society folk were out to honor the queen furnished to Rosaria by Pendleton.

On Wednesday evening at 8:30 Rev. C. A. Hodshire of the Methodist church united in marriage Miss Eva Laville Randolph and Albert O. Warner at the home of the bride's parents, 14 East Webb street. Quite a number of friends and relatives were present for the ceremony which was performed under a bell of roses. Mrs. A. J. Owen played the wedding march and the young couple were attended by Miss Majorie Ireland as bridesmaid and Ross Carroll as best man. The bride wore a beautiful satin gown and a veil caught with orange blossoms. A luncheon was served following the wedding and the young couple left for Portland on the late train.

Library News

Following is the librarian's report for May as given to the library board last evening:

June 8, 1916.
To the Members of the County Library Board:

The circulation for May totaled 4721 which was more than the same month last year. In looking over the branch records for the past six months, we found that the Adams branch has circulated just 1000 volumes during the six months from December to May, an unusually fine record for a place of its size. Comparing the entire county circulation during the same six months period, we find that 25,104 books circulated in 1915 and 24,072 in 1916 which shows a gain of 8968 vols.

Cataloging. The cataloging is progressing well with 1455 new cards made and filed during the month. Over one thousand of these were entirely typewritten and now brings the children's catalog and adult fiction up to date and complete. This is not a mere matter of typing but of thinking as well and often of hunting up data. Some time ago I consulted with Mrs. Webb of the high school commercial department as suggested by members of the library board, to see if work of this kind would be of practical help to students in typing practice, and so be of mutual benefit to students as well as the library. She found that card work, especially when needing so much thought between lines, would not be beneficial to them, or worth their while when speed was what they were working for.

School Libraries. The graded school libraries from the Pendleton schools have been brought back and checked up ready to be exchanged to other grades next semester. They were found in very good condition with almost no mending needed. They have had to be stored away on tops of the book cases for want of room. The rural school libraries are all coming in at this time and there is no place to put them. Some of the longer sets of adult books have also been packed on top of the cases in the reading room to relieve the congestion on the shelves there.

It would be very desirable if as many as possible of the school libraries, county books, public documents and cupboard material could be moved soon to the basement of the new library to make way for the summer work here and to make the final move easier.

A recent letter from the state librarian to all libraries of the state asks for records of the methods of co-operation between public libraries and schools. A statement of the work already done between the Pendleton schools and public library was carefully made and sent to Salem as requested. Mr. Park has looked it over with me and tells me that we need expect no change as it meets with his approval and the work can be continued along the same lines. Library records of the school books deposited in the public library have been so carefully kept that the books could at any time be separated and treated in any way thought best. The longer library hours and library service during Saturdays and vacation periods really gives the children better opportunities to use the books than if they were kept in the school buildings. A copy of the statement sent to Salem is affixed to this report.

Meacham. Yesterday a library station was opened at the general store at Meacham in charge of Elsie Denron who graduated this year from the Pendleton high school and has kindly offered to look after the work there. She has been given instruction as to the care of the station, the records and reports and we hope the people at Meacham and their summer guests

WOMEN'S STOMACH TROUBLES

The Great Woman's Medicine Often Just What Is Needed.

We are so used to thinking of Lydia E. Pinkham's Vegetable Compound as a remedy exclusively for female ills that we are apt to overlook the fact that it is one of the best remedies for disorders of the stomach.

For stomach trouble of women it is especially adapted, as it works in complete harmony with the female organism, since it contains the extracts of the best tonic roots and herbs. It tones up the digestive system, and increases the appetite and strength. Here is what one woman writes showing what this medicine does:—

Newfield, N. Y.—"I am so pleased to say I can recommend Lydia E. Pinkham's Vegetable Compound as an economical and beneficial remedy in most ailments pertaining to women. At least I found it so by only taking two bottles. I had indigestion in a bad form and I am now feeling in the best of health and owe it all to Lydia E. Pinkham's Vegetable Compound."—Mrs. BERT WILLIAMS, R. D. No. 29, Newfield, N. Y.

Many women suffer from that "all gone feeling," and "feel so faint," while doing their work. Ten chances to one their digestive system is all out of order. A tablespoonful of Lydia E. Pinkham's Vegetable Compound after each meal should completely remedy this condition in a few days.

will find the vacation period still more enjoyable for the books thus furnished them.

Hermiston Library Building. The most important event of the month was the offer from the Carnegie Corporation of a five thousand dollar library for Hermiston which has been a matter of general rejoicing among the people of that community. Col. Bailey's gift of six lots for a library site has added that much more to their good fortune. Although Hermiston has too small a population to be in line for a Carnegie building as a separate city institution, the Carnegie Corporation was willing to include the population of the reclamation district closely adjoining the city as given by the United States reclamation office and to give the building as a county branch library free to all the county.

Athena Needs Building. Last week at the invitation of the mayor of Athena, I met members of the Athena city council and of the Athena library board to discuss the possibility of a Carnegie building at that place. They are very desirous of going ahead with it and have a site practically ready. Athena stood first of all branches last year in circulation of books which totaled 4760 volumes for the year. Their library reading room is one of the most attractive in the county and from the beginning the six members of their board have taken turns in keeping open house, the hours being on Wednesday and Saturday afternoons. The enthusiasm of these women and their thoroughly harmonious work have spread the library habit throughout the community and Athena deserves a good building if it can possibly be managed.

Respectfully submitted,
SABRA L. NASON,
County Librarian
